

Yuki Sato

Lab Technician · Quality Analyst · Science Communicator

Großhadern, Marchioninstr. 15, 81377 München · 0176 6612304 · yuki.sato@gmail.com · DOB: 30.11.1991

PERSONAL STATEMENT

Meticulous laboratory scientist with 9 years in analytical testing and quality control across pharma and food sectors, plus a passion for making science accessible. Has run GMP labs, validated methods, and hosted public science events. Precise, curious, and equally comfortable at a bench or in front of an audience.

PERSONAL INFORMATION

Date of Birth: 30 November 1991

Address: Marchioninstr. 15, 81377 München

Driver's License: Class A, B & C

Availability: Full-time — shift work possible

WORK EXPERIENCE

Senior Lab Technician

2020 – present

Roche Diagnostics GmbH, München

Run analytical testing (HPLC, GC-MS) in a GMP-regulated QC lab. Validate methods, investigate deviations, and train new technicians. Cut average test turnaround by 20%.

Quality Analyst

2016 – 2020

Danone Deutschland, München

Performed microbiological and chemical QC on food products. Maintained HACCP documentation and supported audits and supplier quality checks.

Laboratory Technician

2014 – 2016

Eurofins Scientific, Augsburg

Prepared samples and ran routine analyses for environmental and food clients. Logged results in the LIMS and flagged out-of-spec findings.

Science Communicator (part-time)

2017 – present

Freelance / science festivals, München

Design and host hands-on science demonstrations for schools and public events. Translate technical topics into engaging, accessible sessions.

EDUCATION

B.Sc. Chemistry — Technische Universität München (2014)

Ausbildung Chemielaborant (IHK) — München (2012)

SKILLS

- Security operations: access control, CCTV monitoring, patrols and incident response
- Cybersecurity awareness: access control, phishing prevention and data handling
- Procurement and invoicing: purchase orders, reconciliation and vendor records
- IT support: troubleshooting, hardware setup and user account administration
- Data analysis: SQL, Python (pandas), Power BI and Tableau
- Stakeholder communication: de-escalation, clear written and verbal updates, reporting
- Content creation: copywriting, social media and photography
